

The "New" MacSchoolsNet

Mark Richardson & Deb Hicks

Empowering
Teachers in Apple
Classrooms

*All we need is a
spark of an idea....
then we are off and
running. We can
macIThappen!*

Mission Statement

Last year the Macintosh Schools Network celebrated it's 50th meeting birthday. We took the opportunity to map out our future while we enjoyed our birthday cake!

The following is our new mission statement.

What are we about

- Sharing knowledge
- Professional Learning
- Informal conversations
- Debating
- Providing a catalyst for ideas
- Networking
- 21st century learning
- Thinking
- Playing
- All things Apple!

What aren't we about

- Presentations which take away from our key objectives above
- Providing basic level PD for Macintosh users

Why we gather?

The focus of the meetings, while having a theme, will be **short** presentations, followed the chance for members to then follow their own directions in any way they see fit.

Who are we for?

- Leaders
- Teachers
- Education Consultants
- Technicians with a high level of curriculum knowledge who can apply it in using Apple devices in 21st Century Learning
- Industry Supporters

*If this sounds like a
group that shares
your interest, join us!
